Changelog

11-03-2024 a11y for title and description

- Changed the `CardTitle` and `CardDescription` components to use `div` instead of `h3` and `p` to improve accessibility.

card.tsx

```
1  const CardTitle = React.forwardRef<
2    HTMLDivElement,
3    React.HTMLAttributes<HTMLDivElement>
4  >(({ className, ...props }, ref) => (
5    <div
6      ref={ref}
7      className={cn("font-semibold leading-none tracking-tight", className)}
8      { ... props }
9    />
10  ))
11  CardTitle.displayName = "CardTitle"
12
13  const CardDescription = React.forwardRef<
14    HTMLDivElement,
15    React.HTMLAttributes<HTMLDivElement>
16  >(({ className, ...props }, ref) => (
17    <div
18      ref={ref}
19      className={cn("text-sm text-muted-foreground", className)}
20      { ... props }
21    />
22  ))
23  CardDescription.displayName = "CardDescription"
```
